June 18, 2007

To Whom It May Concern:

Futrend Technology, Inc. provided website management services for AFFIRM while I was the president for the association.

As I have not dealt with Futrend Technology directly, I gathered experiences from other AFFIRM board members who have. I received glowing positive reviews regarding Futrend's quality of service and responsiveness. AFFIRM's requirements presented many challenges and Futrend worked diligently to get to the bottom of the issues, and then solve them. Futrend assigned a competent and professional webmaster to assist us, and he responded quickly to our needs and with cordiality.

AFFIRM would gladly recommend Futrend to potential customers.

Sincerely,

Dick Burk
AFFIRM President
Chief Architect
