

Futrend Technology Board of Advisors

Futrend Technology, Inc. is proud to have the following industry leaders serving on our Board of Advisors.

James C. Ballard, President, Perot Systems Government Services, Inc.

With more than 34 years of experience in naval engineering and program management, Jim Ballard leads the Perot Systems Government Services (PSGS) group and is responsible for strategy, management, operations, and business development of the business unit. The Government Services group has built a reputation in the Department of Defense, Department of Homeland Security, Civilian Federal Agencies, Science and Technology agencies and the Intelligence Community for unsurpassed professional services performance. Jim is a member of the Acquisition Professional Community and holds a Defense Acquisition Workforce Improvement Act Level III Certification in Program Management.

Robert F. Toth, Vice President, General Dynamics Information Technology, Inc.

Robert Toth currently serves as the Vice President, Contracts, for General Dynamics Information Technology, Inc. He is responsible for the overall policy, management and leadership of the contracts administration function within the company. Robert has more than 17 years of program, contract, and financial management in the federal market. His experience includes solving complex contractual and pricing matters, developing direct cost and indirect rate strategies, risk mitigation, merger & acquisition support, and ensuring internal and external compliance to include Sarbanes Oxley (SOX) reviews.

K. Clark Childers, CPA and Partner, Cherry Bekaert & Holland, LLP

Clark is a Certified Public Accountant and partner with the regional accounting firm of Cherry, Bekaert & Holland, LLP. He has over 30 years of accounting and finance experience, concentrating in providing consulting, accounting and auditing services to government contractors. A current member of the firm's Executive Board, Clark has extensive experience working with government contracting, engineering, professional services and technology firms. He has participated in a broad range of consulting projects in the areas of planning and budgeting, financing, allowability and allocation of costs, financial and accounting procedures, accounting systems, incentive compensation and employee benefit plans and acquisitions and divestitures.
